PROFESSIONAL EXPERIENCE

ERP / Integration Consultant — Infor PSSC Inc.
January 2024 – Present

- Designed and implemented integration solutions within Infor M3 using MEC, XtendM3, and Infor API Gateway
- Built custom M3 extensions and configured event-driven workflows to automate business processes
- Developed and maintained API integrations connecting M3 with external systems and third-party services
- Analyzed client requirements and architected scalable solutions aligned with enterprise standards
- Performed end-to-end testing, debugging, and production issue resolution for M3 customizations
- Collaborated with consultants, developers, and client stakeholders to deliver project milestones on schedule
- Conducted knowledge transfer sessions and provided technical documentation for delivered solutions

Software Developer Intern (Capstone) — LQTech Security Solutions
March 2023 – June 2023

- *Built a full-stack Inventory Management System handling product tracking, stock management, and reporting*
- *Gathered requirements from stakeholders and translated them into functional features*
- *Performed system testing and debugging to ensure data integrity and reliability*

CSWDO Santa Rosa – Project Leader Santa Rosa, Laguna, Philippines
September 2022 – March 2023

- *Led a development team to build a social welfare registration system for the City of Santa Rosa, streamlining citizen data management and program enrollment*
- *Designed system architecture, assigned tasks, and coordinated sprint timelines across the team*
- *Developed core modules including registration workflows, data validation, and reporting features*
- *Conducted code reviews to maintain quality and provided technical mentorship to team members*
- *Presented the project at IT Expo, receiving recognition from faculty and industry evaluators*
